

- T3:PO.132 *Negative correlation between NPY/AgRP concentration and adiponectinemia in Nonalcoholic Fatty Liver Disease obese adolescents submitted to a long-term interdisciplinary therapy*
De Piano, A, Tock, L, Carnier, J, Oyama, LM, do Nascimento, CO, Martinz, AC, Foschini, D, Sanches, PL, Emandes, RMY, de Mello, MT, Tufik, S, Dâmaso, AR
- T3:PO.133 *The relationship of metabolic syndrome and obesity with pulmonary function*
Dong-Hyuk, J, Ji-Won, L, Hye-Ree, L, Hong-Yup, A, Jae-Yong, S
- T3:PO.134 *Validation of the TSD-OC: a new disability assessment tool for morbidly obese patients*
Savina, C, Tempera, S, Donini, LM, Cuzzolaro M, Spera, G, del Balzo, V, Brunani, A, Capodaglio, P and the SID-SIDCA Task Force
- T3:PO.135 *SFO clinical appropriateness chart (SSA-RMNP-O) for the metabolic, nutritional and psychological rehabilitation of obesity*
Pandofo, MM, Savina, C, Tempera, S, Donini, LM, Cuzzolaro, M, Spera, G, del Balzo, V, Petroni, ML, Brunani, A and the SID-SIDCA Task Force
- T3:PO.136 *Changes of 25-Hydroxy-Vitamin D and PTH levels during weight loss*
Tzotzas, I, Gastaris, K, Tziomalos, K, Karra, S, Papadopoulou, F, Krassas, GE
- T3:PO.137 *Short-term results of severe obesity treatment with two types of gastric balloons: a prospective study*
Morales, MJ, De-Castro, ML, Del-Campo, V, Pena, E, Sierra, JM, Pineda, JR, Arbones, MJ, Martínez-Olmos, MA.
- T3:PO.138 *Association between glucose level, body composition and parent's obesity in a mexican group of college women*
Velazquez-Alva, MC, Irigoyen-Camacho, ME, Zepeda, M
- T3:PO.139 *Lipids profile and body composition in a group of Mexican young adults*
Velázquez-Alva, MC, Irigoyen Camacho, ME and Zepeda, MA
- T3:PO.140 *Hypertiglyceridemic Waist as a simple predictor of Atherosclerotic cardiovascular disease in Korean Men*
Kyungwon, S, Jaehyung, L, Hyejin, J
- T3:PO.141 *The impacts of the obesity in the intensive treatment of adults.*
Moock, M, Mataloun SE, Pandolfi MM, Mendes JCP, Novo NN, Colombo P
- T3:PO.142 *Visceral adiposity cut-off points to indicate risk factor to develop NAFLD in Brazilian and Italian obese adolescents*
Caranti, DA, Sartorio, A, de Piano, A, L Tock, L, Lederman, H, Mirocchi, A, Agosti, F, Patrizi, A, de Mello, T, Tufik, S, Lafortuna, C, Dâmaso, AR
- T3:PO.143 *Pattern of Physical Activities among Mothers of Obese Children: A comparison between Malaysian Childhood Treatment (MASCOT) group and Control group*
Hana Hamzaid, N, Nor, H, Sharifah Wajifah Wafa, SSTW , Ruzita, AT, Roslee, R, Ayeisah, R , Reilly, JJ
- T3:PO.144 *The upregulation of orexigenic pathway is a critical barrier on weight loss in obese adolescents with eating disorders*
Carnier, J, Piano, A, Correa, FA, Sanches, PL, Inoue, D, Da Silva, PL, Campos, RMS, Tock, L, Nascimento, C,MO, Oyama, LM, Mello, MT, Tufik, S, Damaso, AR
- T3:PO.145 *Association of SLAMF6 gene variations with cardiovascular disease risk factors in patients with severe obesity*
Turcotte, V, Bouchard, L, Tchernof, A, Deshaies, Y, Pérusse, L, Lebel, S, Houli, FS, Marceau, P, Vohl, MC
- T3:PO.146 *The coexistence of aging and obesity additionally increase TGF-beta and MMP related cardiac fibrosis*
Lee, SD, Lee, JY, Kuo, WW, Huang, CY
- T3:PO.147 *Pioglitazone improves the unbalanced M1/M2 phenotype of circulating monocytes in obese type 2 diabetic patients*
Satoh-Asahara, N, Toshiya, M, Himeno, A, Sasaki, Y, Muranaka K, Yamada K, Suganami, T, Ogawa, Y, Shimatsu, A
- T3:PO.148 *Obesity as comorbidity in hypertensive patients*
Mozos, I, Serban, C, Susan, L
- T3:PO.149 *Profile of obese adolescents presenting for a weight management program*
Cojean, KA, Batch JA, Cardinal, JC., Davies, PSW, Truby H
- T3:PO.150 *Non-alcoholic fatty liver disease investigated by magnetic resonance spectroscopy and correlated to BMI SDS and liver parameters in serum of 73 obese children in Denmark*
Bille, DS, Chabanova, E, Faerk, J, Gamborg, M, Thomsen, HS, Holm, J-C
- T3:PO.151 *Elevated serum leptin in overweight pregnant women is related to impaired glucose metabolism and dietary sucrose intake*
Vähämäko, S, Isolauro, E, Pesonen, U, Koskinen, P, Ekblad, U, Laitinen, K
- T3:PO.152 *Acipronectin and its associations with the recurrent angina in patients after coronary artery bypass grafting*
Dvoryashina, IV, Supryadkina, TV, Kholmátova, KK
- T3:PO.153 *A novel non-invasive Fibroscan® based tool for the detection of hepatic steatosis in overweight and obese patients*
De Ledinghen, V, Beaugrand, M, Ziol, M, Douvin, C, Fournier, C, Sandrin, L, Miette, V, Sasso, M
- T3:PO.154 *Chronic metabolic liver diseases: new XL probe dedicated to obese patients to measure liver stiffness and assess fibrosis*
De Ledinghen, V, Rigalleau, V, Vergniol, Foucher, J, Merrouche, W, El-Hajji, F, Fournier, C, Sandrin, L, Miette, V
